Handmade, in a classic "turn shoe" (made insideout) technique by craftsmen trained in the best traditions of European shoe making. Brand new pre-arched lasts were created especially for dancer's foot shape.

The elastic binding promotes a smooth line throughout the foot, the binding lays completely at on top of the foot. Flexible paste allows proper fit and enhanced flexibility while the reinforced toe box provides extended wear time. Coated silicone gel tip pad contributes to extra comfort. High wings built up gradually support the foot and create a beautiful, clean look. The slightly rounded reinforced platform is designed to flatten to the dancer's balance point, typically the platform will morph within one to two hours of practice.

All three shank options are flexible and allow the dancer to roll through demi-pointe. The shank follows the arch with precision, while providing proper support en-pointe. Polyurethane (microfiber) insole and heel area lining prevents "sliding" in the shoe and wicks away moisture. Minimal materials used to achieve light weight. An embossed outsole creates more traction.

Unlimited options, precision fit

Designed and handcrafted in the finest European traditions, La Pointe displays a classic look, but with a new age feel.

Traditionally stitched inside out, it is made with natural materials of the highest quality, offering non-slip leather outsole and sleep pleats.

Its specially developed toe box utilizes a superior paste designed specifically for a softer more comfortable shoe, which forms easily to the shape of an individual's foot, while maintaining a softer feel with less break-in time.

Its reinforced platform also significantly prolongs the lifespan of the shoe.

La Pointe offers a variety of lengths, widths, shapes and strengths to uniquely fit each specific foot to ensure a flawless performance every time, and suit the needs of any dancer, from beginners to professionals.
