# LIVE YOUR DREAM!

WE CREATE TOOLS TO MAKE THE DREAM OF ANY DANCER  
CLOSER AND HIGH GOALS EASIER TO ACHIEVE.  
DREAM – IS FREEDOM IN MOVEMENTS!

## **GRISHKO®** is:

- CONSTRUCTION SHARPNESS for maximum comfort of every movement.
- MATERIALS and THE FORM of pointe shoes, as a professional tool to support the feet.
- CUSTOMIZED TOUCH to take care of the feet of each customer.
- It is a DREAM, which comes true!

Every GRISHKO® product is a tool to achieve goals, tested by professionals before the appearance on the shelf. We take into account the opinion of dancers, those who use our goods every day of their professional life. Every pair of dance shoes — is a combination of refined form with a wide assortment. It is a special approach, with concern about the health and future of every dancer.

Taking into consideration the variety of feet types, the dance styles, and the level of dancers, we have developed a simple system that helps to choose the proper shoes for any class, rehearsal or performance. We're sure that properly fitted shoes (incl. soft ballet and lyrical shoes) will guarantee the proper support, the self-confidence in the class or on the stage, and save the health of dancer.

It is our aim to give the tools which follow the shape of the foot which make the dream closer to turning into life. We're happy to know that hundreds of thousands of dancers in 75 countries are on the way to their success with GRISHKO® products.

# POINTE SHOES

GRISHKO® pointe shoes are the most customized ballet shoes on the market. The number of basic variations (model, shank, size, width, hardness) exceeds 12500, and this number doesn't include the additional technologies, colors, and individual orders with different adjustments!

Often ballerinas use one certain model of pointe shoes with different shanks depending on the performances she will partake in. But, sometimes they require slight changes to basic model. To make this easier for our customers, we created a number of additional technologies. These are options that you can add to the basic pointe shoe models to create a pair that is bespoke to the customer's needs.

# HOW TO CHOOSE

The dancer should first choose the last according to the foot shape and toe configuration. And next, go for the box, platform, vamp and other features.

The last is the main attribute, which creates the inner form of pointe shoes. It is the base for proper support, health, and comfort.

GRISHKO® pointe shoes are the most customized in the world.

All our shoes are based on 5 different forms:

- 2007,
- Fouette,
- Smart Pointe,
- Elite,
- Vaganova.

Each last is designed to suit a variety of foot shapes and toe configurations.

# TECHNOLOGY

## PRO

### SILENCE

Innovative damping compound of "Silent knot" technology eliminates the sound of pointe shoes on the stage.

- PRO in machine-stitched models (Maya I, Maya II, 2007, 3007, Nova, Miracle, DreamPointe, Elite): combination of "Silent knot" and silent insole. The insole additionally is made of sound absorbing material, which feels slightly softer compared to traditional version. We recommend to try a harder shank in PROs (e.g. SH instead of H).
- PRO in hand-stitched models (Fouette, Triumph, Smart-Pointe, Elite, Super Triumph): "Silent knot" technology with no changes to the shank.

## FLEX

### FLEXIBILITY

- Flexible shank feels like ready-to wear, as it adapts to the arch.
- Easier to bend the shank in fore part and under the heel.
- Additional comfort during roll-up to demi-pointe and en-pointe.
- Extremely suitable for demi-pointe elements and contemporary.
- Recommended for beginners, as they need more flexibility of the shank to train their foot. Flex shanks are often used as first pointe shoes after the demi-pointe. Please ensure you take into consideration the dancer's arch and strength.

## PRO FLEX

### COMBINATION OF BOTH

For those, who prefer nothing, but the best we offer two technologies together: PRO to reduce the noise when dance and FLEX to make tiny movements comfortable and easy.

## CLASSIC SHANK CONSTRUCTION

Unique fully hand-made production based on the natural materials. The differential support during lifespan keeps the foot well-trained and helps to prevent injuries.

### CLASSIC, BUT DIFFERENT

**CLASSIC**  
Classic strong shank preferred by professionals. Good for advanced en-pointe elements.

**EASY ROLL-UP**  
Easier roll-up from demi-pointe to en-pointe for those, who prefer flexibility in the fore part.

READY-TO-WEAR

**PRO**  
Silent shank: a bit softer compared to classic, but still supportive for advanced en-pointe elements.

**FLEX**  
Flexible shank, preferable for demi-pointe elements and contemporary in addition to classic en-pointe elements.

READY-TO-WEAR

## INNOVATIVE SHANK CONSTRUCTION

Flexible and supportive shank at the same time suits for classic and contemporary technique.

High-tech cast-in insole and platform, made of non-toxic thermoformable lightweight material is adjustable to any foot arch and muscle strength.

Unique insole and platform construction using high tech materials provides longer life span.

### READY-TO-WEAR

Do not hammer

Soften the box with fingers

Do not break the shank

**ATTENTION!**  
**INNOVATIVE POINTE SHOE MODELS ARE READY-TO-WEAR. BREAKING IN THE SHANK WILL CAUSE DAMAGE OF THE SHOES.**

# GLUE

## CLASSIC GLUE

Classic glue is made of natural materials. The composition has adaptive characteristics. When ballerina put on the shoes, under the pressure in addition to the heat and sweat, the form of the shoe adapts to the form of foot.

## TROPICANA GLUE

In the damp climate with high temperature, the situation changes: the classic glue during classes becomes too soft, and the lifespan of pointe shoes decreases. To help our customers in countries with such climate, we offer TROPICANA glue - it is still made of natural materials, but now it's more stable to water and temperature. We don't recommend ordering TROPICANA glue for the cold climate; as such glue can be felt like too hard.

### NOTE

Option is FREE,  
available at request,  
with extened lead time.

## MIRACLE GLUE

Innovative glue with memory effect, it adapts to the feet form but stays flexible and resilient during the dance. You can adapt the box form to your feet shape and profile with fingers.

# MATERIALS

## BRAND COLORED FABRIC

The satin color is exclusive and produced exclusively for Grishko ltd. It looks beautiful with different types of skin and doesn't reflect on the stage.

## BOX

The box of all Grishko pointe shoes is made of natural materials, that makes it breathable and safe for your skin. Jute, nettle, and cotton that are used for fabrics production, these natural materials work to keep the ballerinas' foot healthy.

## OUT-SOLE

The outsole of all GRISHKO pointe shoes is made of high quality natural leather which gives additional flexibility to the foot movements owing to the leather properties.

At the same time «VEGAN» option is available at request for all models, except hand-stitched.

# PREPARA- TORY POINTE SHOES

Girls between the ages of 4–10 years wear soft ballet slippers to class. Generally, the transition to Pointe shoes is perceived to be painful for children.

The GRISHKO® Company specialists have developed a unique range of children's preparatory pointe shoes, which help children's feet to adapt gradually, step by step, without pain.

THE FIRST  
POINTE SHOES  
FOR ADVANCING  
BEGINNERS

LAST TYPE: 2007  
SHAPE: Slightly tapered  
PLATFORM: Medium  
VAMP: U-cut, Medium  
SOLE: Machine-stitched /  
Hand made  
SIZES: 0,5 – 7,5  
WIDTH: X – XXXXX  
SHANK: SS

COLOR:   
Pink

EN PRODUCT BENEFITS:  
Recommended for advancing beginners (kids and adults)  
- 1/2 box guarantees reduced pressure on the forefront.  
- Soft shank allows easier roll up from demi-pointe to full pointe.  
- Allows elements of pointe work at the barre and in the center of classroom except complicated like fouette.

DE PRODUCT BENEFITS:  
Empfohlen für Anfängerin und Balletttänzerin, die die Ausbildung fortsetzen (Kinder und Erwachsene)  
- Vollwertiger Spitzenschuh für das Training an der Stange sowie in der Sallmitte.  
- Die 1/2 Box drückt weniger auf die Zehen.  
- Die weiche Sohle erleichtert den Übergang von den weichen, vorbereitenden Spitzenschuhen zu "echten" Spitzenschuhen.

FR POINTS FORTS:  
Conseillée pour les débutants plus avancés (enfants et adultes)  
- 1/2 boîte pour une pression moins forte sur l'avant-pied.  
- Un léger shank autorise un passage de la demi-pointe à la pointe plus facile.  
- Permet le travail de pointe sauf les fouettés les plus compliqués à la barre et au centre de la classe.

IT BENEFICI DEL PRODOTTO:  
Ideale per principianti avanzati (bambini e adulti)  
- 1/2 soletta riduce la pressione sul davanti.  
- La suola morbida permette di alzarsi dalla mezza punta alle punte.  
- Permette di lavorare in punta eccetto per complicati fouetté alla sbarra e al centro della stanza.

# POINTE SHOES BASED ON VAGANOVA LAST

# POINTE SHOES BASED ON ELITE LAST

Pointe shoes should be properly fitted, otherwise it can lead to bruises or even injures. Romanian type of foot is not so common among ballet dancers, and unfortunately, they often wear the shoes that created for other forms. Elite was developed for foot with low or medium arch. Elite is comfortable for wide foot with short toes, and makes it look beautiful.

# MATERIALS AND PROPERTIES

- 

**GENUINE LEATHER**  
Used to make the sole and the upper of the shoe.  
Breathable material. Adapts to the foot shape.
- 

**MICROFIBER (artificial leather)**  
Provides sufficient floor grip. Allows the skin to breath.  
Long-lasting material.
- 

**CANVAS (100% cotton)**  
A breathable and hypo-allergenic type of natural fabric which can be easily dyed.
- 

**CALICO (100% cotton)**  
An extra thin type of fabric for proper fit.
- 

**TERRY FABRIC (100% cotton)**  
Ensures dry skin and protects the foot.
- 

**NON-SLIP SILICON**  
The shoes strings are covered with special non-slip silicon to ensure that the shoes fit perfectly even when performing complex movements.
- 

**FLAT SEAM**  
The sole and the upper are sewn together in such a way as to ensure that the seam is flat and even highly sensitive foot is guaranteed exceptional comfort.
- 

**ELASTIC YARN THREAD (Polyamide)**  
Special type of elastic yarn used for sewing ensures that the shoe perfectly matches the shape of the foot.
- 

**ELASTIC BINDING**  
Due to elastic binding the shoe securely hugs the foot and offers considerable comfort.

MINI SILICONE TOE PADS

Can be used on their own or in addition to any other pads above. Use one or two mini silicone pads to separate toes when needed, and remember they have different sizes that allow ballerina to combine them different ways. Strongly recommended if there is large space between toes

HOW TO FIND YOUR RIGHT SIZE

How to measure and identify GRISHKO® pointe shoe size:

- 1) Take a piece of A4 paper and put ballerinas' foot on it, draw the contour of the foot with a pencil; the pencil should be held under an angle of 90° (perpendicularly). Draw and measure the left and right foot, as they can differ.
- 2) Measure the distance from the heel to the endpoint of the toe (in mm);
- 3) Find the result of the measurements in the table. In case the measurement in between two sizes, we recommend taking a bigger one, as pads and tights also have a certain thickness.

HOW TO CHOOSE THE WIDTH

GRISHKO® offers pointe shoes in 5 different widths:  
X – for narrow feet  
XX and XXX – for medium feet  
XXXX – for wide feet  
XXXXX – for super wide feet

Measure your foot at its widest place (where the bunions are) to identify the required width the pointe shoes. Relate the result to the table data and identify your width. It is recommended to choose a width that provides a firm and painless fit. If you notice wrinkles on the fabric and gaps between the shoe and the foot, it means you need less width.
