OMEGA Ω

Handmade, in a classic “turn shoe” (made inside out) technique by craftsmen trained in the best traditions of European shoe making. With its pre-arched shape, the Omega tip is specially designed to match the shape of the foot. The elastic binding promotes a smooth line throughout the foot, the binding lays completely at on top of the foot. Flexible paste allows proper fit and enhanced flexibility while the reinforced toe box provides extended wear time. Coated silicone gel tip pad contributes to extra comfort. High wings built up gradually support the foot and create a beautiful, clean look. The slightly rounded reinforced platform is designed to flatten to the dancer’s balance point, typically the platform will morph within one to two hours of practice. All three shank options are flexible and allow the dancer to roll through demi-pointe. The shank follows the arch with precision, while providing proper support en-pointe. Polyurethane (microfiber) insole and heel area lining prevents “sliding” in the shoe and wicks away moisture. Minimal materials used to achieve light weight. An embossed outsole creates more traction. Available with pre-stitched high-quality satin or cotton ribbons (free option).

ALFA α

Handmade, in a classic “turn shoe” (made inside- out) technique by craftsmen trained in the best traditions of European shoe making. With its pre-arched shape, the Alfa tip is specially designed to match the shape of the foot. The open U-shape vamp is securely cinched by an elastic drawstring that relives pressure from the heel. Flexible paste allows proper fit and elevated flexibility while the reinforced toe box provides extended wear time. Coated silicone gel tip pad contributes to extra comfort. The slightly rounded reinforced platform is designed to flatten to the dancer’s balance point, typically the platform will morph within one to two hours of practice. La Pointe

By Wear Moi

La Pointe

Unlimited options, precision fit

Designed and handcrafted in the finest European traditions, La Pointe displays a classic look, but with a new age feel. Traditionally stitched inside out, it is made with natural materials of the highest quality, offering non-slip leather outsole and sleep pleats.

Its specially developed toe box utilizes a superior paste designed specifically for a softer more comfortable shoe, which forms easily to the shape of an individual's foot, while maintaining a softer feel with less break-in time. Its reinforced platform also significantly prolongs the lifespan of the shoe.

La Pointe offers a variety of lengths, widths, shapes and strengths to uniquely fit each specific foot to ensure a flawless performance every time, and suit the needs of any dancer, from beginners to professionals.

The pointe shoe that fits any dancer's strength

Shank Strengths

LA POINTE BEGINNERS

	XS	Very soft shank, recommended to start pointe work at the barre. Great for the transition from demi-pointes into pointe shoes.	<div>TEXON</div> <div>LEATHER</div>
	S	Soft shank, recommended for beginners and dancers that like a soft, more broken-in feeling.	<div>TEXON</div> <div>TEXON</div> <div>LEATHER</div>

LA POINTE ADVANCED

	M	Medium shank, recommended for medium strength feet. Offers an easy break-in process.	<div>TEXON</div> <div>CARDBOARD FIBER 2.0</div> <div>LEATHER</div>
	H	Hard shank, recommended for dancers with stronger feet, who also need the extra support and push.	<div>TEXON</div> <div>CARDBOARD FIBER 2.5</div> <div>LEATHER</div>

LA POINTE PRO

La Pointe Pro offers reinforced soles, made of unbreakable shanks, that only comes in ½ length and hugs the arch of the foot perfectly. Both RH and RXH shanks help put dancers up en-pointe into a correct upright position without holding the foot back, and still allowing to easily roll through demi-pointe position.

	RH	Reinforced Hard Shank, recommended for dancers searching for unbreakable shanks and strong hold.	<div>TEXON</div> <div>POLYCARBONATE</div> <div>LEATHER</div>
	RXH	Reinforced extra hard shank, in addition to all specifications of RH, recommended for dancers that may need additional support, and extra hold.	<div>CARDBOARD FIBER 2.5</div> <div>POLYCARBONATE</div> <div>LEATHER</div>

VAMPS: V-CUT

V-VAMP is a Medium-low to Low vamp that is recommended for dancers with shorter toes and lower breaking arches.

The pointe shoe that fits any arch

Shank Lengths

- FULL**
A full length insole features a longer shank, recommended for dancers whose arch breaks higher than most.
- 3/4**
Three quarter length shank is recommended for dancers that have a medium to low break in arch.
- 1/2**
Half insole and shank is recommended for low break in arch. Provides a more broken-in feeling than other shank lengths.

Wings

- STANDARD WINGS:**
Standard wings are typically recommended for a foot that has shorter toes and if a dancer has a hard time to roll through «Demi Pointe».
- HIGH WINGS:**
Recommended for medium to long toes. High wings are very supportive throughout the entire wing area preventing creasing in the joint area.
